

LAKE COUNTRY PROBUS CLUB

Member COVID-19 Protection Policy

Effective 10:00am, August 27th, 2021

The following policy for Lake Country Probud was discussed and unanimously approved by the Lake Country Executive and Management Committee.

Persons who have not received both COVID vaccinations cannot register for or attend any in-person activities or events. **If they attend any in-person activity in contravention of the policy, their action is grounds for summary expulsion from the club.**

Policy Conditions:

First – Everybody should be prepared to provide documented proof of their vaccination status and to make it available upon request.

Second – There will be a single point of contact so that the documented evidence will not be kept but your name will be checked off a master membership list, for future reference by organizers or hosts. The single point of contact for vaccine verification, as well as event organizers and hosts, will be the only people who have access to the list.

Policy clarification:

1. You must be prepared to prove your vaccination status with Government-approved written documentation.
2. Medical exceptions must also be documented by a medical doctor on the doctor's letterhead.
3. If not vaccinated, you may not register for or attend in-person activities but you are still welcome to attend any on-line Zoom activity.
4. If you are not vaccinated and if you do register for or attend an in-person event, such action is grounds for summary expulsion from the club. **This policy is implemented with "zero tolerance."**
